OUR PRINCIPLES

Accessible and Affordable Care
Wholistic and Open-Minded
Low Tech and High Touch
Close and In Person
Patient Empowerment,
Mutual Honesty and Respect
Limited Profit to Preserve Ideals
Barter & Donations are always welcome

Speedy Affordable Quality

In life's endeavors you
cannot have all three...

In West County *affordable quality*
matters most to us old-time
country doctors...

so you might have to wait a little...
because we care.

WHY ARE WE DIFFERENT?

Health is for everyone - for you, our coworkers, our neighbors, and our entire community.

We seek a slower and more caring pace with both patients and team members so that we can treat all as friends and family.

This is what Caring in Community means.

This is medicine as it should be.

We are a true medical home.

YOU CAN HELP KEEP HEALTH CARE AFFORDABLE

Come see us in person.

Referrals to other specialists are only available after we examine you first.

Paperwork and Prescriptions are filled at appointments, and we will give more refills than most to make up for the inconvenience of receiving this highest quality care.

Healthy Living with Diet and Exercise is your Responsibility - and we can help.

Please give us your questions and suggestions to make us even better.
